PROJECTS

Portfolio Website — *HTML & CSS + Bootstrap*

Developed my portfolio site showcasing project cards and live/demo links, with intuitive Bootstrap navigation, social icons, semantic markup, and full mobile responsiveness.

https://github.com/Ali-Shahrez/Portfolio.git

Aurum Restaurant Website — *HTML & CSS + Bootstrap*

Built a sleek page featuring hero messaging, feature highlights, testimonial, and CTA, using semantic HTML and Flexbox for accessibility and conversion-focused design..

https://github.com/Ali-Shahrez/restaurant-page.git

PIA Airline Reservation System — *Python + Tkinter*

Created a desktop app with modular OOP structure, dynamic seat-map UI, real-time revenue/cargo tracking, color-coded seat status, and robust validation with persistent file storage.
